THANK YOU SO MUCH!

 Love Nail guard! It's helped my problem clients

 Nail guard is an amazing product! Self levels beautifully, super durable and great with problem lifters. It does have a heat spike so be careful and I find it files more like an acrylic versus a gel. It's not as soft and you really need to make sure it... See More

 Omg this stuff changed the game for me! It's all I use on anyone now.. from short overlays to longer nails as well. Zero lifting even on problem nails. And it self levels so it saves you the finish filing step 🤩Uh-mazing stuff!!

 Wat is it exactly I'm looking to try a new gel system and I saw this. Is it just a healthier alternative to regular gels
